THE RIGHT LABEL from the right partner

Bluetooth labellers with industry-leading Brady print technology

Get the high performance you need to work the way your work demands. Designed as a system (printer, ribbon, materials), each part “talks” to the other. Easily drop in a label cartridge and the printer does the rest — auto setup, auto part recognition and auto adjustments. Now you’re ready to label in seconds.

Your toughest work. Our high-performance materials. A better labelling experience.

From everyday use to the extremes, Brady materials stand out. Choose from the widest range of colours, finishes and targeted applications in the industry.

Material styles only available from Brady:

- **All-Weather Vinyl Labels**
Labels that withstand up to 10 years of outdoor abuse
- **Aggressive Adhesive Self-Laminating Vinyl Wrap Around Labels**
For tough conditions, including high-humidity environments, small diameter wires and newer wire jacketing materials.
- **BradyGrip®**
Print-on Hook Material that can be easily applied, repositioned or removed
- **Dissolvable**
Completely dissolves in warm water within 30 seconds, leaving no residue
- **Electrostatic Dissipative**
Low profile material features a static dissipative adhesive & release liner
- **FreezerBondz™**
Applies to frozen surfaces, including glass & polypropylene in liquid nitrogen
- **High Temp Resistant**
Ultra-durable adhesive designed for extreme washes & cleaning chemicals
- **QuickFlag™**
Tapered adhesive side creates easy-to-apply one-sided wire & cable flags
- **Repositionable**
Permanent or repositionable with CleanLift® Series Vinyl Cloth
- **Raised Panel**
Raised panel polyester labels for panel ID to replace engraved tags
- **StainerBondz™**
Chemical-resistant polyester designed for use in the slide staining process
- **Tags**
Convenient identification, when legibility and tensile strength are needed
- **ToughBond®**
Ultra-high adhesion for textured metals & low surface energy plastics
