Core, 230mm sleeves and up

Which nap to use

- **5MM SMOOTH:** smooth, spray-like finish with no laying off. Doors, cupboards, flat walls, trims and furniture.
- **10MM SEMI SMOOTH:** semi smooth finish with even coverage and good paint release. Topcoating interior walls and ceilings, MDF, timber and plywood.
- **15MM SEMI SMOOTH PLUS:** holds more paint for faster coverage, finish close to the 10mm nap. Interior walls and ceilings and lightly textured surfaces, plus brick, block and textured plaster on the minis.
- **MINI ROLLERS:** cut in with the same nap as the big roller for an even finish with no picture framing.
- **PAINT:** water-based paints only. Primers and topcoats.

MF-160-15-3PK	160mm, 15mm nap (semi smooth plus), 3 pack

● CLEANING AND STORAGE

Water-based paint: rinse the sleeve in clean water until it runs clear, spin it out and hang it to dry. Store dry, off the floor.
