

Graco LineDriver Conditional Registration Kit

In-house electrical and signalling package, fabricated at GO Industrial's Brisbane workshop. Meets the conditional registration requirements in every Australian state and territory, so a Graco LineDriver can be operated legally on public roads.

KEY FEATURES

- Compliant with conditional registration in all eight Australian states and territories
- Designed and fabricated in-house at GO Industrial's Brisbane workshop
- SAE Class 1, ECE-R65 LED amber rotating beacon, 120 flashes per minute
- 2,350 lumen LED front work light, IP67 / IP6K9K, 9-32V multivolt
- Two ADR-approved LED combination indicator lamps, fully sealed
- ADR-approved LED licence plate light, multivolt 12-24V
- 110 dB(A) dual-tone disc horn (420 Hz / 335 Hz) at 1 metre
- Pre-terminated 12V wiring loom with sealed automotive connectors
- Heavy-duty battery disconnect plug for safe isolation
- Operator switch panel with labelled controls and identification decals

TECHNICAL SPECIFICATIONS

Operating voltage	12V DC system
Rotating beacon	LED, SAE Class 1, ECE-R65, 12-24V, 120 flashes per minute, 1.9 A at 12V
Front work light	LED, 2,350 lumens, 9-32V multivolt, IP67 / IP6K9K, 1.2 A at 13.8V
Indicator lamps	2 × LED slimline combination, 12-24V, ADR approved
Licence plate light	LED, 12-24V multivolt, ADR approved, white
Audible warning	Disc horn, 110 dB(A) at 1 metre, 420 Hz / 335 Hz dual-tone
Harness & bracketry	Pre-terminated harness, powder-coated mild steel 3-piece bracket set
Compatibility	Graco LineDriver HD (262005, 25U474) LineDriver ES (25U671)
Country of manufacture	Australia, Brisbane QLD

AUSTRALIA-WIDE COMPLIANT

Approved across the conditional registration requirements of every state and territory road authority.

QLD TMR	NSW Transport for NSW	VIC VicRoads	SA DIT	WA DoT	TAS Dept of State Growth	NT MVR	ACT Access Canberra

COMPATIBLE ACROSS THE LINEDRIVER RANGE

The same kit fits every current Graco LineDriver in the Australian range. The bracket set covers both the LineDriver chassis and the LineLazer it carries, so the lighting array sits at the correct height and angle for the combined machine.

	GRACO LINEDRIVER HD 262005	LINEDRIVER HD ELECTRIC START 25U474	GRACO LINEDRIVER ES 25U671
POWER SOURCE	Honda GX200 pull-start petrol engine, 6.5 HP	Vanguard 6.5 HP electric-start petrol engine	Lithium 24V / 50Ah × 3 batteries
OPERATING SPEC	16 km/h fwd, 10 km/h rev, 3.6 L fuel capacity, ride-on attachment	Dual foot pedals, electric start, ride-on attachment	Smart Drive Eco-Mode, 12-hour runtime, 16 km/h fwd, regenerative braking
MACHINE COMPATIBILITY	LineLazer V series	LineLazer V, GrindLazer, ThermoLazer, TapeLazer	LineLazer, FieldLazer, GrindLazer
IDEAL FOR	Operators who prefer petrol with a mechanical pull-start	High-uptime contractors who need quick electric start	Battery-only sites, low-noise and indoor or sensitive-site work
CONDITIONAL REG KIT	✓ KIT FITS	✓ KIT FITS	✓ KIT FITS

BRACKET SET INCLUDED
Three-piece fabricated bracketry covers the LineDriver chassis and the LineLazer it carries, no extra fitment hardware required.

PRE-LOOMED HARNESS
Wiring loom is pre-terminated with sealed automotive connectors. Plug-and-go installation, no cable cutting or crimping.

FITMENT AVAILABLE
Fitment and commissioning at GO Industrial's Brisbane workshop, or on-site nationally by arrangement.

WHAT'S INCLUDED IN THE KIT

WHAT'S IN THE KIT

- LED amber rotating beacon with fabricated pole assembly
- 2 × LED combination indicator lamps
- 1 × LED front work light, 2,350 lumens
- 1 × LED licence plate light
- 1 × LED flasher relay
- 1 × 12V dual-tone disc horn kit
- 1 × Operator switch panel and enclosure
- Pre-terminated wiring loom
- Heavy-duty battery disconnect plug
- Battery charger
- 3 × Fabricated mounting brackets (LineDriver light array, switch panel, LineLazer light array)
- Operator decals for switches and component identification

REPLACEMENT PARTS & SPARES

- LED amber rotating beacon (with dome)
- LED combination indicator lamp
- LED front work light, 2,350 lumens
- LED licence plate light
- 12V dual-tone disc horn
- LED flasher relay
- Operator switch panel and decal set
- Battery disconnect plug
- Wiring loom
- Mounting bracket set (3-piece)

WARRANTY

12-month GO Industrial workmanship warranty, plus original component manufacturer warranties: 5 years on the rotating beacon, 3 years on the LED work light, lifetime warranty on the combination indicator and licence plate lamps, manufacturer warranty on the disc horn. Fitment by GO Industrial or by a qualified auto-electrician using the supplied wiring documentation.
