Electric Double Diaphragm Pumps

Husky™

Electric Diaphragm Pumps

Eliminate unnecessary pump failures, improve your facilities energy efficiency and create a quieter and cleaner work environment for your employees. Graco's Husky e-Series pump will help you achieve all of those items!

- Patent pending technology allows pump to **stall under pressure** preventing pump failures from clogged lines or closed valves
- **Energy efficient** electric drive reduces energy consumption up to 5x compared to traditional air operated diaphragm pumps
- Seal-less diaphragm pump design **eliminates leaking** and failures due to run-dry pump conditions

Need Low Pulsation? No Problem!

Our Husky e-Series pumps are ideal for applications that require low pulsation and a smooth flow. The air charged drive allows for the elimination or reduction of pulsation WITHOUT expensive pulsation dampers or surge tanks.

SoloTech™

Peristaltic Hose Pumps

With only the hose in contact with the fluid being pump and no check valves in line, Graco's SoloTech peristaltic pumps are ideal for materials that other pumps cannot handle.

- **Efficient Pumping Action** - One hose compression per revolution extends hose life
- **Low Maintenance** - No valves, seals or glands
- **Reversible** - Pumps can be used to empty lines or clear blockages
- **Extended Hose Life** - Only one hose compression per revolution

Single Roller Design

The single roller design compresses an engineered hose through a full 360 degrees of rotation, meaning the roller is only in contact with the hose once per revolution. This reduces compressions, temperature, and friction and improves hose life.

Choose from 4 different hose materials to meet your specific application requirements

Hose Design

With only the hose in contact with the fluid being pump and no check valves in line, Graco's SoloTech peristaltic pumps are ideal for materials that other pumps cannot handle. Abrasive, corrosive, shear sensitive, and gas entrapped fluids can easily be pumped or dosed into your application.
