

GO ADBLUE

SINGLE WALL TANK RANGE

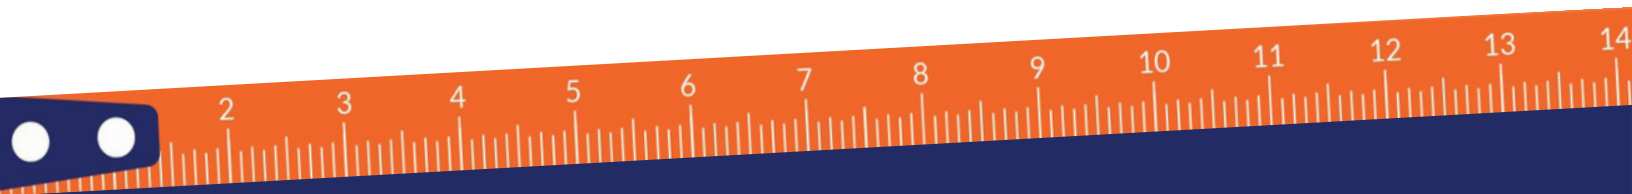

- The GO AdBlue Single Wall Tank Range provides a robust and space-efficient solution for the dedicated storage of AdBlue. Engineered specifically for chemical compatibility and longevity, these tanks are an ideal choice for commercial, industrial, and agricultural home base refuelling.

PRODUCT RANGE

CODE	CAPACITY (litres)	LENGTH (mm)	WIDTH (mm)	HEIGHT (mm)	WEIGHT (kg)
AB-1	1,000	865	865	1,900	40
AB-2	2,000	1,770	835	1,950	90
AB-3	3,000	2,725	835	1,950	125
AB-5	5,000	2,900	1,170	1,920	150

GO ADBLUE

SINGLE WALL TANK RANGE

FEATURES

- **Heavy-Duty Rotomoulded Construction:** Manufactured using a high-grade rotomoulding process, the tanks feature a seamless, one-piece body that offers exceptional strength and impact resistance.
- **Purpose-Built for AdBlue:** The materials used are specifically selected to ensure the purity of the AdBlue remains uncompromised, preventing contamination and ensuring compliance with ISO 22241 standards.
- **Slimline Design:** The intelligent, narrow footprint allows these tanks to be installed in confined spaces or alongside existing fueling infrastructure without requiring extensive site modifications.
- **Distinctive Aesthetic:** Supplied in a Dark Blue finish, providing easy identification of the tank's contents and offering high UV stabilization to protect against the elements.
- **Fill Point:** DN50 (2") 304 SS Fill Point fitted with Male Camlock and Dust Cap / Non Return Valve and Full Bore Isolation Valve.
- **Dispensing:** DN25 (1") 316 SS Gravity Dispensing Point fitted with Full Bore Isolation Valve
