

# SMALL SURFACE PREPARATION JOBS

## GRINDLAZER™

Proper surface preparation is essential to ensure optimal adhesion of any coating to the surface by removing all surface contaminants – leaving the surface clean, dry, properly profiled and sound.

The GrindLazer HandHeld Series is a great choice for small onboard surface preparation jobs.

The rugged and compact desing allows for easy touch-ups, edging and removal of renders and coatings from steel surfaces in hard-to-reach areas.

### Advantages

- **Versatile**  
Handles both horizontal and vertical surfaces
- **Long life**  
Steel and high-impact plastic construction
- **Flexible**  
Available in both drum and rotary styles
