Don't risk your reputation with anything less

It's happened before: A critical piece of equipment meets an unfortunate end due to the failure of one, tiny component. That's why Graco doesn't build just any off-the-shelf part into its equipment. We select and manufacture high quality components our customers have come to rely on. Our equipment is superior because its parts are superior – in design, quality and performance.

Designed, tested and built for reliability

Great design is in the details. At Graco, our engineering team designs and specifies every part that is built into our machines. We test and re-test our parts to make sure they provide you with outstanding performance, long life and durability. You can't afford your equipment to fail in the field. As the trusted brand you rely on, neither can we.

Each quality part is dependent on another

Graco equipment is designed as a unified system, not as a collection of stand-alone parts. Every part is designed with a careful eye toward the parts it will interact with, and adjusted accordingly. When any of a system's parts is replaced with a lower quality, non-Graco part, the result may be a ripple effect that degrades not only its own functionality, but that of other parts throughout the system.

Protect your business with genuine Graco parts

When you need replacement parts, you could purchase cheaper alternatives. But why risk it? Off-the-shelf parts may hinder performance and possibly even damage your Graco equipment. You invest in Graco equipment because it is superior quality. It's what your business depends on. So protect your investment and your future. Trust only genuine Graco parts.

XTR-5 and XTR-7 Guns - Lightweight and ergonomic

While they are lightweight and comfortable to use, Graco's XTR[™] guns can handle the toughest coatings and perform in the most extreme spray conditions. All our airless spray guns are made with pride and built to exacting standards in our Sioux Falls, South Dakota, U.S.A. manufacturing facility.

XTR-5: Maximum working pressure of 5000 psi (345 bar, 34.5 MPa)

XTR-7: Maximum working pressure of 7250 psi (500 bar, 50.0 MPa)

Needle Assembly and XHD[™] Reverse-A-Clean (RAC)[®] SwitchTip[™]

- Exceptional life, pattern and finish
- Great for high solids coatings
- Factory-set needle needs no adjustment

Variety of Handle and Trigger Options

- 2- and 4-finger trigger options
- Oval-insulated or round handle
- Lightweight trigger pull

Easy Out[™] Gun Filter

- Reduces tip plugs
- · Eliminates collapsed filters
- · Provides more filtration area

Trigger Guard

 Easily detaches for access to filter
Acts as a wrench to remove filter from gun handle

Small profiles spray in tight areas

EasyGlide[™] Swivel

 Allows easier gun movement under high pressure

Ordering Information

XTR-5 Airless Spray Guns

Maximum working pressure: 5000 psi (345 bar, 34.5 MPa)							
XTR500	One inch round handle, four-finger trigger, no tip						
XTR501	One inch round handle, four-finger trigger, 519 flat tip						
XTR502	Oval-insulated handle, four-finger trigger, 519 XHD RAC tip						
XTR503	Oval-insulated handle, two-finger trigger, 519 XHD RAC tip						
XTR504	One inch round handle, four-finger trigger, 519 XHD RAC tip						
XTR505	One inch round handle, two-finger trigger, 519 XHD RAC tip						

XTR-7 Airless Spray Guns

Maximum working pressure: 7250 psi (500 bar, 50.0 MPa)								
XTR700	Round handle, four-finger trigger, no tip							
XTR701	Round handle, four-finger trigger, 519 flat tip							
XTR702	Oval-insulated handle, four-finger trigger, 519 XHD RAC tip							
XTR703	Oval-insulated handle, two-finger trigger, 519 XHD RAC tip							
XTR704	Round handle, four-finger trigger, 519 XHD RAC tip							
XTR705	Round handle, two-finger trigger, 519 XHD RAC tip							

XHF[™] Gun - Rugged and capable

Graco's XHF gun is designed for high-flow, high-pressure applications. It handles the most demanding high-viscosity, protective coatings, including epoxy intumescent coatings and fiber-filled materials.

Maximum working pressure of 7250 psi (500 bar, 50 MPa)

Individually tested for quality and safety

Graco XHD^{¬¬} Reverse-A-Clean[•] (RAC) SwitchTips are specifically designed and individually tested for spraying high-solids coatings at high pressures up to 7250 psi (500 bar), while still optimizing the specified spray pattern. All spray tips are manufactured in Sioux Falls, South Dakota, U.S.A. and individually tested before leaving the facility.

XHD RAC SwitchTip™ and Guard

- SwitchTip Minimize downtime by changing tip sizes in seconds without removing tip guard and housing
- · Save time by not having to use a screwdriver to remove the tip
- Locking tab ensures tip stays securely in guard
- · High quality carbide lasts longer
- · Designed to easily clear clogs

Xtreme-Duty[™] High-Pressure Hoses – Built to take a beating

Graco Xtreme-Duty high-pressure hoses are flexible and durable, yet extremely easy to use. Because hoses take a beating on the jobsite, Graco puts its hoses through a unique safety testing regimen in our state-of-the-art manufacturing facility. Each hose design undergoes **impulse, burst, flexibility** and **cold bend testing** to give you top quality, durability and reliable performance. Xtreme-Duty hoses are available in different lengths, diameters, and three different pressure ratings.

The length and diameter of hose you use affects the pressure drop of fluid to the spray gun. A longer hose has a greater pressure drop. A smaller hose diameter has greater pressure drop. If using two different diameter hoses coupled together, attach the larger diameter hose to the pump and the smaller hose to the gun to minimize pressure drop.

Designed for durability

- Chemical-resistant hose cover withstands a variety of solvents, acids and bases
- Cover stands up to sunlight, ozone, oxygen and extreme weather conditions
- Color-coded by pressure to take the guesswork out of using the right hose

Heated Hoses – Reliable performance for plural-component sprayers

Heated hoses are designed for use with plural component high-pressure airless equipment, such as the Graco XP[™] and XM[™] plural component sprayers.

Remember to check your airless hose for kinks anywhere along its length. The hose should also be closely examined for splits, cracks or abrasions. Bulging anywhere on the hose or any amount of separation from the coupling could lead to hose failure and it should be replaced. For optimum hose life, never exceed the hose's rating for pressure and temperature.

Ordering Information

Water Jacketed Heated Hose (Approved for explosive atmospheres) 50 ft (15.2 m) sections

- 245840 Single hose, 1/4 in (6.3 mm), 5000 psi (345 bar, 34.5 MPa)

- 248120 Dual hose bundles, 1/2 in & 3/8 in (12.7 & 9.5 mm) 7250 psi (345 bar, 3.45 MPa)
- 248121 Dual hose bundles, 3/8 in & 1/4 in (9.5 & 6.3 mm) 7250 psi (345 bar, 3.45 MPa)

Electric Heated Hose (Not approved for explosive atmospheres), 5000 psi (345 bar, 34.5 MPa) 50 ft (15 m)

- 24P616 Hose heat control box. 1 zone, 230 VAC, 15A. Controls up to 200 ft of dual hose. Ref manual 310798.
- 15E750 Hose A, ID 1/4 in (6.3 mm) Dash 5 JIC fittings, (1/2-20 thread)
- 15E751 Hose A, ID 3/8 in (9.5 mm) Dash 5 JIC fittings, (1/2-20 thread)
- 15E752 Hose B, ID 3/8 in (9.5 mm) Dash 6 JIC fittings, (9/16-18 thread)
- 248907 Hose Set, ID 1/4(A) x 3/8(B) (6.3 x 9.5 mm) Dash 5 on "A", Dash 6 on "B"
- 248908 Hose Set, ID 3/8(A) x 3/8(B) (9.5 x 9.5 mm) Dash 5 on "A", Dash 6 on "B"

Static Mixing, 7250 psi (500 bar, 50 MPa)

- 248925 1/4 in x 12 ft (3.6 mm) whip hose mixing kit, includes (2) 15E592 housings and 6 mix chemicals
- 262478 Static mix housing kit, 1/2 in x 5 in (12 mm x 127 mm) 7250 psi. Uses 248927 mix elements
- 248927 25-pack, disposable, 1/2 in (12 mm), 12 element acetal sticks fit 15E592 housing
- 511352 Static mixer, 7250 psi (500 bar, 50.0 MPa), MxM, 3/8 npt x 9.5 in npt (9.5 mm x 241 mm), 12 welded set elements, SST

Protect your investment! Scuff Guard provides extra protection and prolongs the life of your hose. Available in two sizes and fabrications.

- 246078 Scuff Guard, 50 ft (15.2 m) braided polyester mesh. Blue 2.5 in nominal diameter
- 246456 Scuff Guard, 50 ft (15.2 m) polyethylene (6 mil) clear tubing 5 in diameter
- 16T138 Reusable Scuff Jacket with hook and loop fastener, 50 ft (15.2 m)

Pump Lowers - Built to last

With Graco's pump lowers, you can easily customize your sprayer for various coatings without purchasing an additional sprayer. Our quick knockdown pump lowers allow for easy maintenance and repair, reducing downtime so you can finish each job faster. The parts inside the lower are designed and tested for longevity and are proven to withstand more cycles than non-Graco pumps.

* Includes seals for both old and new series filter caps.

King, Senator® or Bulldog® motors

Sprayer Packings – Optimize the performance of your pump

Packings play a critical role in optimizing spray performance by sealing pressure and holding material inside the pump. The tighter the seal, the better the performance. Graco packings feature two material constructions. UHWMPE (Ultra-high-molecular-weight polyethylene) is a durable, high-impact resistant material, used in such products as bulletproof safety vests. PTFE (Polytetrafluoroethylene) is a non-stick coating that can withstand extreme heat and is well-known for its use in cookware. Consult your manual for proper packing order.

Xtreme® Seals Contains 3 UHMWPE and 2 leather packings

- · Ideal for abrasive materials
- Standard in Graco Xtreme NXT Spray Packages

Xtreme NXT Sprayer Accessories

Part #	Description
288347	Hopper Feed Kit
255143	Wall-Mount Bracket
245132	Xtreme Floor-Stand Kit
NXT107	NXT Air Motor Valve – fits all three sizes
262230	External Air Controls for Lightweight Xtreme Package Carts
262231	External Air Controls for Heavy-Duty Xtreme Package Carts
NXT112	De-Ice Control Knob (5-Pack)
NXT102	De-Ice Control Repair Kit
NXT107	Replacement Poppet Valve Kit
181072	Round Suction Tube Strainer
191635	Tube Strainer
245176	Suction Kit, Replaces OEM Suction Assembly (6 ft, 1.8 m hose)
288687	Suction Kit, Wall Mount Version (10 ft, 3 m hose)
245136	55 gal (200 l) suction tube extension,
245190	Inlet Ball Spring Load Kit: 145cc, 180cc
245191	Inlet Ball Spring Load Kit: 220cc, 250cc, 290cc
245127	Carbide piston ball for 145 or 180 cc lower, 3-pack
244841	Lubricator – NXT Air Motor
206995	TSL, 1 qt (0.9 L)

DataTrak™

Graco's exclusive DataTrak control kit collects information about the performance of your Xtreme NXT sprayer, including pump diagnostics and material usage. It also offers protection against motor runaway in the event of a problem or accident.

Graco Has You Covered

Facilities Worldwide for Global Support

Quality First

At Graco we pride ourselves on providing best-in-class products. Engineered solutions are manufactured in our own facilities, with the highest standards in the industry. We provide you with world-class customer support and expertise to help solve your application challenges.

Global Reach

Graco has facilities across the globe to provide you with the products and service you need, where you live. Plus, Graco has dedicated field experts in all areas of the world to support the products we sell.

Product Capabilities

Graco has a broad range of products that are engineered and tested to perform in the harshest environments so you can be certain your equipment is protected and working at peak performance.
