

## One of the Fastest Growing Products in Australia

Sierra would like to submit for your consideration a product that has been developed and manufactured in our Brisbane facility that has and continues to gain acceptance throughout Australia.

This one chemical reduces stockholding as it replaces several chemicals when compared to competitors, from kitchens to public areas, and what makes it so successful is its strength and its safety.

Citrus 6000 has been embraced by every conceivable industry; from the demands of degreasing equipment to the ultra sensitive aquaculture industry throughout Tasmania. Now used on large passenger Cats operating on the Great Barrier Reef, as well as commercial shipping lines, RSL's, restaurants and schools.

Being **food grade**, Citrus 6000 is used extensively in kitchens in a wide variety of roles, and it is used throughout public areas of housekeeping, including **tables & chairs, benches, walls & floors**.

From a cost point of view, the product offers great savings – dilutions of as low as 1 part to 20 parts waters will still easily clean surfaces, fabrics, and carpets.

One product; Spray & Wipe  
Spot Cleaning (all surface types including fabrics, carpet, walls, and floors)  
Degreaser for Kitchen areas, bain-maries, ovens, splash backs etc  
Floor Cleaner  
Vinyl & Leather Cleaner  
Stainless Steel Cleaner (Streak free)  
Laundry Pre-Spray

Citrus 6000 can offer real savings, reduced stockholding, and safety. **Samples for trials are available for your personnel to evaluate**, and are available electronically

Wall charts are also available for staff training and information.
