

# Shock Blaster

## Biodegradable Degreaser

*Safe, Strong and Water Soluble!*

### PRODUCT DESCRIPTION

Sierra's 'Shock Blaster Degreaser' was developed as a true alternative to the flammable Solvent Degreasers used by the trade. Fast acting, and capable of penetrating caked on grease and oil.

Shock Blaster Degreaser is **organic** and unlike any other degreaser in that it's viscous nature allows it to cling longer to the surface to which it is applied. This gives greater adhesion, and greater cleaning power.

Upon contact with grease & oil, Shock Blaster Degreaser converts the greases to soap (saponification), and emulsifies it, allowing it to be simply washed away from the surface.

#### **Characteristics**

|  |
|--|
| ✓ <b>Non-Flammable</b> – nonregulated for transportation and storage |
| ✓ <b>Non-Combustible</b>   |
| ✓ <b>Fast Acting</b> – Penetrates and cleans quickly                 |
| ✓ <b>Biodegradable and Organic</b>                                   |
| ✓ <b>Viscous</b> – “clings” to the surface longer.                   |
| ✓ <b>Dilutable</b> – dilute with water if required                   |

Engines, parts & equipment, concrete, graffiti removal and many more uses

### APPLICATION

Use in place of Solvent Degreasers, applied by brush or spray (air, trigger), and allowed to penetrate for between 3 to 10 minutes depending upon the situation. For very dirty situations, it is often helpful to work in with a brush. Wash away with water. Shock Blaster Degreaser is ideal for use through pressure cleaners.

Shock Blaster Degreaser may be diluted for a multitude of other uses, from minor degreasing (2:1) to general surface cleaning (20:1). For heavy degreasing – use neat.

For full details on safety, please request a MSDS sheet.

### CHARACTERISTICS

|                  |                         |
|------------------|-------------------------|
| Appearance       | Transparent Pink Colour |
| Specific Gravity | 1.13                    |
| Flashpoint       | n/a                     |
| Characteristics  | viscous                 |
| Use              | Degreaser – Heavy Duty  |

### Uses

|  |
|--|
| <b>Mining</b> – Cleaning of heavy equipment using Pressure cleaners. |
| <b>Automotive</b> – Engine degreasing                                |
| <b>Industrial</b> – floors, concrete, equipment                      |
| <b>Contract Cleaning</b> – shopping centres, schools                 |
| <b>Surfaces</b> – Steel, concrete, brick, asphalt, glass             |
