

MARK[®] HP XT[™]

BREAKTHROUGH ELECTRIC HIGH-PRESSURE PERFORMANCE

The next evolution in high-pressure electric spraying—powered by XT Motor and AMPLIFI[™] Technology for gas-like performance from any standard outlet (230V or 120V). Atomises 100% solids, silicone, vapour barriers and demanding protective coatings with quiet and compact, electric convenience—without compromise.

EXTREME PRESSURE FROM ANY OUTLET

Delivers up to 465 bar (6750 psi) from standard 230V or 120V power.

LOWER COST OF OWNERSHIP

Eliminates fuel and engine maintenance—saving \$1,000's per year.

QUIET, COMPACT, EASY TO MOVE

Up to 25% lighter than the nearest gas sprayer for easier one-person transport and indoor/occupied work.

BUILT FOR HARD-TO-ATOMISE COATINGS

Sprays 100% solids, silicone roof coatings, epoxy, vapour barriers, intumescent, and protective coatings.

GLOBAL COMPONENTS

ELECTRIC POWER. HIGH-PRESSURE PERFORMANCE. BUILT FOR THE TOUGHEST COATINGS.

XT MOTOR POWER – GAS-LIKE PERFORMANCE FROM ANY OUTLET

- High-torque, low-RPM design delivers consistent output under load
- Runs on 230V or 120V with dual-voltage flexibility
- Quiet operation opens more jobsites and more hours

AMPLIFI TECHNOLOGY – MORE POWER, MORE PRODUCTIVITY

- Up to 50% more usable power from the same outlet
- Selectable amperage helps prevent nuisance tripping on common breakers

ENDURANCE™ PUMP WITH PROCONNECT™ – BUILT FOR UPTIME

Direct-immersion Endurance Pump designed for 100% solids, epoxy, vapour barrier, intumescent, and other hard-to-atomise coatings. ProConnect lets crews swap the lower in minutes to minimise downtime and avoid missed deadlines.

RAPID RESPONSE CONTROL AND DIGITAL DISPLAY – PRECISION UNDER PRESSURE

- Fast, accurate pressure adjustments
- Consistent atomisation across demanding materials

TURBOCLEAN FLUSH AND WATCHDOG™ PROTECTION – CLEAN FAST AND PROTECT YOUR INVESTMENT

- Clean 3x faster using less fluid—get back to spraying sooner
- WatchDog automatically shuts down to help prevent costly damage

BUILT FOR HIGH-PRESSURE COATING WORK—ENGINEERED TO KEEP CREWS MOVING.

Model	Part No.
Mark HP XT Complete	18H420
Mark HP XT Big 150	18H421

PSI	465 bar (6750 psi)
GPM	5.71 lpm (1.5 gpm)
Maximum Tip Size	0.041"
Voltage Range	230V/120V Flex Voltage
Supported Materials	100% solids coatings, epoxy, silicone, vapour barriers, polyurethane and more
