Product Description

This stationary high pressure Honda petrol unit is ideally suited where high volumes of air are required. e.g. post hole driving, full tyre inflation for trucks and tractor or for multiple outlets.

It features a 13HP GX390 Honda and a 2 stage high pressure pump.

Electric start standard. Comes with battery leads but no provisions for battery.

This is a seriously powerful compressor we recommend for;

- Contractors
- Mobile service vehicles
- Farmers
- When there is no three phase available
