QuickConnect[®]
Tip Extension

—
So simple that it has no equal.

What is **QuickConnect**[®]

Tip extensions bring another dimension to spraying. They're great, they're safe - they save a lot of working at height. But they all come with one major drawback - to ensure a pressure tight joint, they rely on threaded connections. Threaded connections need a spanner. Ever been there - can't find the spanner?

Looking for a spanner is a thing of the past. QuickConnect[®] gets you to the length you need - with no tools.

All you need is any 7/8" threaded quality airless spray gun. Add a QuickConnect[®] Adapter. Pop your tip and guard back on - your gun is ready to use. Want to reach the ceiling? Off comes the tip and guard, on goes the extension you need (there's six lengths to choose from), back on goes the tip and guard - and you're ready to go. All with no tools.

You've done it in less time than it took to read it.

So simple that it has no equal.

INDUSTRIA

QTech Q390 airless spray gun with QuickConnect[®] adapter in place ready for a QuickConnect[®] tip extension to be added. The rest is 1, 2, 3.

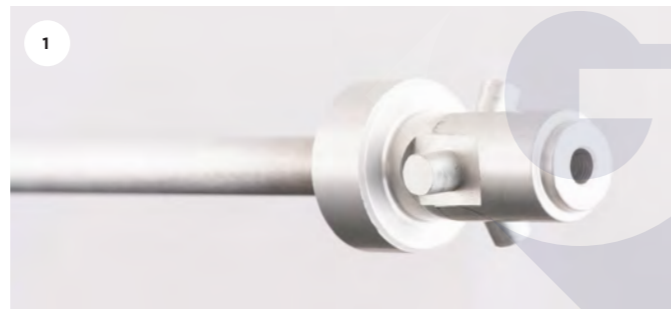

The background to **QuickConnect**[®]

One extremely simple design brief - a tip extension that requires no tools. The strength to take that brief through design without allowing for any variation. Continuing with the path of no compromise, take the design and manufacture it to the highest precision using only the best materials.

That's **QuickConnect**[®]

Designed, manufactured and assembled at a state-of-the-art manufacturing facility in Canada using the highest grade aluminium alloys that are then anodized for increased resistance to corrosion.

So simple that it has no equal.

1 Three-pin connector that is basic to all QuickConnect[®] components

2 Tip and guard with adapter fitting onto QuickConnect[®] extension

3 One more twist and it will be home

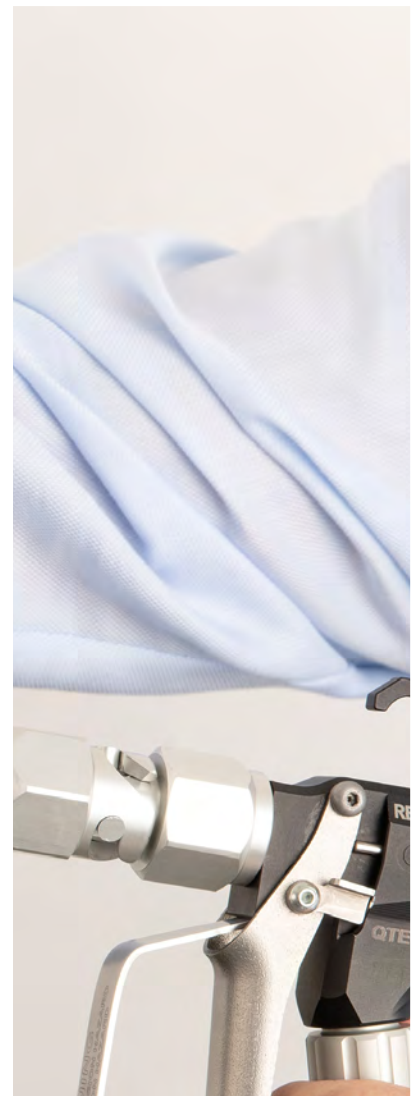

4 Ready to go, tip and guard fitted onto QuickConnect[®] extension - no tools required

QuickConnect[®]

Tip Extensions

Easy to understand.
Simple to use.
Saves real time on the job.

So simple that it has no equal.

Simplicity defined.

Globally patented.
Used by professional decorators worldwide.

INDUSTRIAL

All you need to know about QuickConnect®

01.

Canadian Design

Exclusive to QTech.

02.

Lightweight

Reduces operator strain.

03.

Strong

High-grade aluminium forging.

04.

Unique

Patented QuickConnect® system ensures no tools required to assemble.

05.

Consistency

Stringent manufacturing controls to the highest Canadian standards ensures product of the highest quality - every time.

06.

Compatibility

Can be used with any 7/8" tip/guard combination. MWP 280 bar / 4050 psi.

07.

Specifying

Available in six lengths. To start using with any 7/8" airless spray gun add a QuickConnect® adapter.

Adapter
